

Prophecy for Tyne Valley 3 October 2018

Emma Stark (Glasgow Prophetic Centre) at The Gate Church, Prudhoe

First recording (In the context of speaking on Peter's denial of Jesus)

The Lord said to me, "There has been a denial of attributes of My character by my church and the cockerel is crowing to say that the wider church community in this part of England have denied the power of God because of disappointment and it was always like a done deal in the Spirit."

And so I said to God, "Would You have mercy on them like You did with Peter?" And you remember there are two times you read of a charcoal fire in scripture and the first is when Peter is denying and saying, 'I don't know Jesus' and it specifically says there was a charcoal fire and so he has a smell associated with his denial. And the next time you read of the charcoal fire is where Jesus is calling Peter off the boat because he's gone back to doing the thing that he used to do which was fishing - but he's not fished in years. He's not thought 'I'll go back' but something, he has a moment in his disappointment and in his denial where a door opens for him to walk backwards, and I felt like God was saying to His church "Look, you denied My power; the cock crowed you were disappointed and suddenly you went backwards." And then God relights the charcoal fire on the beach and re-triggers a smell in Peter, so Peter sits down and what does he smell? The memories of his denial. At that point Jesus says, basically, you're welcomed back in.

And I felt that the Lord was offering a serious course correction moment for the church and saying this to you

"You've been walking away (not just this church here [The Gate], hear what I'm saying - there's a wider agreement from My power in favour of social enterprise in the church; in favour of social action." Now, obviously we need social action, so hear what I am saying to you. Social action is not wrong but actually what happened is you gave a value to Messy Church, a value to cafe church, a value to food-banks, a value to social action, without marrying it to the miraculous.

And the Lord says, "It is a turnaround time that I am offering you, I am offering you a second charcoal fire if you would put My power back on the agenda of your church meetings; I actually saw it written under Any Other Business in a church meeting "The Power of God in my Church"

The Lord says, "Would you put it back in the conversation of your businesses. 'God, we have a gap, we need Your power.' Would you put it back in the pulpit for the Lord says, "I am yearning to do miracles here again." And then I heard the Lord say " If you would let Me heal you, all your disappointment, I will revoke what you did in denying Me then I would move in this region again, says God, And then I said, "God, show me what it would look like if they dealt with their disappointment and the Lord said, "There will be a fire that will run the length of this valley" I saw fire going back and forward, back and forward, back and forward, again and again and the Lord says, "There will be demonstrations of My kingdom power that you have yearned for, if you would put it back on the agenda that My power matters and you would kill your disappointment.

Don't you love it that God always has a strategy for His people? You see, I love the food-bank movement, I love the social action but I've seen where people have put a healing station at the door of a food-bank so that everybody gets fed and healed and saved and delivered at the same time. Just as one idea.

Sam Robertson from Glasgow Prophetic Centre

As we came into the region actually, we were talking, in my spirit straight-away I heard the Spirit say these two lines as a declaration over here. And He said this "Valley of despair, you are turning into a valley of power and valley of disconnection, you are turning into a valley of divine community." (repeated) In worship I was aware He lets us see a demonic spirit that has influence over a particular region, over a particular people and I was aware of one of the spirits that influences the culture, particularly in this part, so not necessarily in Newcastle per se, the rural parts on the outskirts, this side of Newcastle and the demon showing itself to me and straight away I knew its name - you'll know the name; it's bizarre the name was Que Sera

Sera, whatever will be, will be. And the demonic spirit comes to bring that type of sluggishness to the hearts of the people 'whatever will be, will be'.

The Spirit of God says I want you to remember in this region; speaking to the region not just the people in this room, your feisty determination and your desire to excel and your desire to pursue, even beyond what you feel like you can and the Spirit of God is speaking even to the atmosphere of Que Sera Sera, whatever will be, will be He's saying whatever I determine will be, but I need the people of God to rise up and pull it down. And the Spirit of God does call you a Valley of Power but you are in that transition point right now and the Lord is looking for the intercessors and looking for all people, all believers to start to rise up and be the pivot by which the region shifts to point towards Valley of Power and to point away from the Valley of Despair. And the Spirit of God is talking about land intercession and the need to walk on the land as the pivot that will cause the turning to see Valley of Despair become the Valley of Power. And then the Lord started to speak to me about a shift in income that people get from the land. The Spirit of God says, "I have made this part of the nation to gain wealth from the land and to have profit from the land and to have resources from the land but the Lord says it has gone silent so He says even as you become the pivot by which I turn this valley round so will even the income and the wealth of the region be turned round back to where it's meant to be. And there will be profit from the soil and there will be profit from the hands of the labourers who will work with the land and work with Creation because God calls you now a Valley of Power.

Emma Stark, a bit later in the evening

It is not business as usual in the body of Christ in this day and the power of God, I prophesy, is going to be seen like never before in this region and the Lord is saying "You have a toe in the water of what God is about to do in you, through you and for you. And there is a burning revelation within me. I feel like my bones are being boiled in this hour. The context of that - it happened to Jeremiah. Where God is saying "My power will be seen in this region again. My power will be seen in this region again. My power will be seen in this region again."
